## PRESS RELEASE

# FAST TURN PROTOTYPE PROGRAM ANNOUNCED

*For Release on or after August 23, 2009*

Santa Fe Springs, CA

Steven Label announces a new Fast Turn Prototype Program. Companies needing prototypes of labels, die-cut parts, overlays and membrane switches can have them delivered in 2-5 days. Development projects, trade shows, catalog shoots, or any variety of needs can be supported without undue waiting. Near production quality parts, with a wide range of materials and colors, are now very affordable, meeting a long time need for many businesses.

Steven Label has been manufacturing labels for over fifty years. With factories in the U.S. and Mexico, the company has silk screen, flexo, digital, off-set and hot stamp printing capabilities. ISO certified and FDA approved, Steven Label produces overlays and nameplates, bar-coded and variable data labels, insulators and shields, point-of-sale, thermal transfer, domed and UL/CSA labels.
