PRESS RELEASE

STEVEN LABEL PARTNERS WITH 3M

For Release on or after September 23, 2009

Santa Fe Springs, CA

Steven Label (SLC) announces entering into a partnership with a world-wide leader in adhesive technology, 3M. By participating in the 3M "Point of Sale Program", Steven Label will be the first company, with its particular sales focus, in the program in Southern California. Through the partnership, customers will enjoy a joint, unified effort by SLC/3M to solve design and engineering problems. Already, a world leader in office machines has seen the two companies work on a "cutting edge" technological break through, providing prototype iterations for testing far faster than expected.

Steven Label has been manufacturing labels for over fifty years. With factories in the U.S. and Mexico, the company has silk screen, flexo, digital, off-set and hot stamp printing capabilities. ISO certified and FDA approved, Steven Label produces overlays and nameplates, bar-coded and variable data labels, insulators and shields, point-of-sale, thermal transfer, domed and UL/CSA labels.
