

STEVEN  
LABEL

# *Your single source.*

## *For unlimited labeling solutions.*

Many of today's companies include thermal transfer label solutions as a major part of their manufacturing process. And those who know count on Steven Label to keep their operations efficient, profitable—running strong.

### ***Adhering to the highest standards—for over 50 years.***

For over half a century Steven Label has used its deep industry knowledge, state-of-the-art equipment and keen engineering skills to provide a full range of blank, pre-printed, and custom or semi-custom labels, printers, software and service to firms across the country. And we want to earn our place as your single-source supplier too.

### ***Labels. Printers. Ribbons. Software. Service. We do it all!***

We offer everything from blank stock to elaborate pre-printed die-cut labels. We'll also provide the best printers and software to run them, and expert service for uninterrupted performance.

We can even handle the entire project for you—design, manufacturing and variable-imaging—for the ultimate in convenience!

#### ***Renowned Label Engineering Expertise***

With Steven Label you've got a highly trained staff dedicated to solving your challenges, reducing your manufacturing costs, and keeping you running around the clock. Our process and quality control systems are second to none—our return rate almost zero.

#### ***In-House Graphic Design and Printing***

Need to create a label from the ground up? You've come to the right place. Our in-house specialists will design one just right for your needs. And we can print in a multitude of colors.

#### ***Superb Talent and Superior Technology—to Serve You Better***

Outstanding customer service is one of our hallmarks. And for your total convenience we offer online quoting, ordering and artwork approval, plus Web-based job tracking. We also have an extraordinary on-time delivery record.

***See our entire line of thermal transfer products and services on the reverse!***
